

Before I get to My Jobs plan,

I have an Urgent Request/Proposition for the President to Consider..

It would make more sense for the President to REQUIRE the follow for the Debt Commission's 12 nominees.

When each Rep gets (3) appointments, this most likely will result in at the least (4) from the far Right and (4) from the Far Left. No matter how you cut it, it's going to be almost impossible to get anything reasonable out of these members.

The solution is the President Require

(1) The Republican Majority Leader in the House to nominate 3 representatives from the Democratic Party

(2) The Democrat Minority Leader in the House to nominate 3 representatives from the Republican Party

(3) The Democrat Majority Leader in the Senate to nominate 3 representatives from the Republican Party

(4) The Republican Minority Leader in the Senate to nominate 3 representatives from the Democratic Party.

PLEASE PASS THIS ON AND DEBATE IT BEFORE THE COMMISSION IS SELECTED..
